About Me

I aspire to establish a rewarding career within a prominent technology-driven organization, be it an established enterprise or a dynamic startup.

My goal is to collaborate with passionate and dedicated teammates, fostering an environment that encourages personal growth and allows me to unleash my full potential.

I am eager to contribute as a pivotal member of a team in an innovative and stimulating work setting.

Technical Expertise

Experience

Intern at Enweave AB – [Sept. 2024 – Jan. 2025] **AI Boosted Sustainability Consultant**

ReactJS, CSS, Figma, Git, REST, Jest

The internship at Enweave involves developing the frontend for an AI-based application that helps companies set sustainability goals. The role includes building and testing reusable React components from scratch and converting Figma designs into responsive user interfaces.
